EDUCATION

University of Bristol

Wristol, UK

Marketing (MSc) | Conditional Offer Received

Sep. 2026 – Sep. 2027 (expected)

Wenzhou-Kean University | College of Business and Public Management

Wenzhou, Zhejiang Province, China

Bachelor of Science in Management (Business Analytics Option)

Aug. 2022 – Jun. 2026

- Weighted GPA: 3.55/4.0
- **Relevant Courses:** Calculus I, Business Statistics, Principles of Economics I&II, Principles of Accounting I&II, Principles of Management, Principles of Marketing, Corporate Finance, Management Information Systems, Database Management, Data Mining in Business, Foundations of Business Anytics, Research and Analytics, Python Programming for Business
- **Coursera Certificates:** Introduction to Statistics (Stanford), Linear Algebra (JHU)

RESEARCH EXPERIENCE

Independent Research Project: The Impact of GenAI Characteristics on Consumer Purchase Intention

Senior Thesis

Oct. 2025–Dec.2025

Tools: AMOS, SPSS, Excel

Methodology: SEM, CFA, moderation & mediation analysis

- Investigated how Perceived Ease of Use, Interactivity, and Personalization of GenAI chatbots influence purchase decisions through the mediating roles of behavioral and cognitive engagement, based on the S-O-R framework
- Designed a survey instrument, distributed it across four major economic regions in China, and collected 320 valid responses from consumers with prior GenAI experience
- Performed comprehensive data analysis using Structural Equation Modeling (SEM) in AMOS, including Confirmatory Factor Analysis (CFA), path analysis, and bootstrapping tests for mediation and moderation effects
- Uncovered a critical boundary condition: AI Familiarity negatively moderated the impact of Ease of Use on engagement, providing nuanced insight for segment-specific AI marketing strategies
- Presented findings through academic poster presentation at WKU Student Research Day 2026.

HONORS & AWARDS

Outstanding Research Poster Award

2026 WKU Student Research Day | Wenzhou-Kean University

Apr. 2026

- Received university-level recognition for presenting senior thesis research on Generative AI and consumer purchase intention through an academic poster presentation.

PROFESSIONAL EXPERIENCE

Anhui Huangpu Culture Group Co., Ltd.

Hefei, China

Marketing Intern, Marketing Department

Jul. 2025 – Aug. 2025

- Analyzed user feedback from e-commerce, social media, and surveys using Excel; calculated positive/negative rates and identified key concerns to support user profiling
- Monitored competitors' product and campaign updates, analyzing social media presence and summarizing feedback (e.g., "slow customer service response") to guide differentiation strategies
- Researched target customer preferences and competitor highlights to assist in data-driven event planning

Anhui Yunzhang Finance Technology Co., Ltd.

Hefei, China

New Media Operations Intern, New Media Department

Jul. 2024 – Aug. 2024

- Supported daily stock analyst live streams, documenting key technical and policy insights in Excel
- Repurposed live content into video scripts and a quote library for Douyin, enhancing content reuse and reach
- Optimized long-form financial articles through structural improvements, data verification, and interactive features
- Managed public account operations, including layout design and performance tracking

Anhui Guangde Rural Commercial Bank Co., Ltd.

Guangde, China

Business Intern, Headquarters Business Department

Jul. 2024 – Aug. 2024

- Compiled "Business Operations Report for June/July 2023", independently carrying out data collection, in-depth analysis, report structuring, and content writing
- Conducted multidimensional business data analysis using Excel, covering key metrics such as deposit structure, loan type distribution, customer coverage, and age stratification
- Independently organized and delivered analysis results in the form of standardized Word reports

DATA ANALYTICS PROJECTS

In-depth Analysis of PWCES Work Engagement Dataset

Wenzhou, China | Mar. 2025 – Apr. 2025

- Performed data analysis on PWCES survey data using R to evaluate key factors affecting job satisfaction
- Built and compared multiple linear regression models, demonstrating that inclusion of work stress improved predictive power
- Evaluated models via MAE, RMSE, R², AIC, and BIC, confirming the full model's optimal performance
- Summarized insights and methodology in a formal APA-style report, including visualizations and statistical interpretations

Data Analysis and Business Reporting with SQL

Jan. 2025 – Mar. 2025

- Integrated data from product, supplier, and customer sources via multi-table SQL operations to enable precise business analytics
- Conducted multi-dimensional sales analysis using aggregate functions and advanced grouping (GROUP BY, HAVING, ROLLUP)
- Identified common product features across regions through set operations (UNION/INTERSECT)
- Optimized data quality and processing efficiency by performing table updates and structural modifications (ALTER TABLE)

AI & DIGITAL PROJECTS

AI-Assisted Interactive Web Project

Apr. 2026 – Jun. 2026

- Utilized Claude Code and OpenAI Codex to support browser-based interactive prototype development
- Applied prompt engineering to optimize UI interaction and gameplay logic
- Deployed web-based projects through GitHub Pages

Douyin AI Creator Program Hackathon | Product Design & Front-end Contributor

Wenzhou, China

Achievement: Third Prize | Delivered an Interactive Product Demo

30May - 31May 2026

- Participated in product positioning, user scenario analysis, and MVP planning for an AI-powered product addressing university students' career anxiety, graduation pressure, and job-seeking information gaps.
- Contributed to the core concept combining Douyin-style information flow cards, emotional companionship, digital avatar interaction, and career support to reach students at moments of real need.
- Designed UI assets, digital animal companion visuals, posters, screenshots, video materials, and copywriting content to improve the prototype's emotional appeal and visual consistency.
- Assisted with front-end page implementation and visual asset integration across 2 pages/modules, helping the team deliver an interactive product demo within the hackathon timeframe and win Third Prize.

EXTRA-CURRICULAR ACTIVITIES

Publicity Officer | Communist Youth League Branch, Wenzhou-Kean University

Aug. 2022 – Jun. 2026

- Drafted and published 20+ meeting minutes, news releases, and event summaries on the branch's social media platforms
- Organized and hosted 10+ thematic group day activities, maintaining an average participant retention rate of 95%

ADDITIONAL INFORMATION

Skills: MS Office, Power BI, Tableau, Python, R, SQL

AI-assisted development tools: Claude Code, OpenAI Codex, Prompt Engineering, GitHub, Gemini

Interests: Piano, Classical Chinese Dance, Swimming

IELTS: Overall Band 6.0
